

1st International Conference

Therapeutic Diagnosis

Digital Humanities and Neuroscience
in Psychotherapy

"CONVITTO ECCLESIASTICO DELLA CALZA"
Florence, 1st-2nd March 2019

Introduction

The conference aims to create a dialogue between all those sciences that can make an innovative contribution in the field of Psychotherapy.

More international research expresses how the current interventions are still partially effective in interacting with the implicit dimension of consciousness. Searching for new operational tracks becomes a priority.

In this perspective, we improve every theory and / or research that can demonstrate a true integration between psychotherapeutic models, medical devices and neurosciences.

With this aim, international experts in the fields of Neuroscience, Digital Humanities and Psychotherapy will make their contributions to lay the foundations for a first multidisciplinary work group in Italy.

The conference is aimed at Psychologists, Psychotherapists, Physicians, Neuroscientists, Biomedical Engineers, Psychiatric Rehabilitation Therapists and other Professionals in the sector.

Members will have the opportunity to participate actively in the program through the presentation of scientific contributions.

The international commission will define a ranking and a cash award to the first three jobs that will stand out for scientific innovation.

Call for Abstract

The members of the Conference have the opportunity to be present to the program by submitting scientific contributions.

Instructions

The Abstract must reach the Organizing Secretariat by and no later than December 31st 2018 to: convegno@anses.it (object: SURNAME ABSTRACT FIRENZE 2018) in pdf format. All the presented works will be submitted to the ANSES Scientific Committee evaluation.

The best contributions will be selected in terms of originality and quality of the proposed topic.

The works must not exceed 3500 characters (excluding bibliography) and it must be indicated:

- Title
- Author's name and surname, Institute/Department/College; main author's address (email, telephone number)
- Thematic area:
 - Neuroscience
 - Digital Humanities
 - Psychotherapy
- Aims
- Methodology
- Main contents
- Existing literature and specific contribution of the presented work
- Results
- Conclusions

The author will have 10 minutes for the presentation.

Each author can present only one abstract even if he can participate, as a co-author, in several works.

The Organizing Secretariat will notify the author's email address of the acceptance or refusal of the scientific contribution sent by June 30th 2018.

Registration of the authors

The authors of oral communications must be regularly registered at the Congress. The registration of the principal author must be contextual to the sending of his/her job. For further information, please contact the Organizing Secretariat at convegno@anses.it.

Program

Friday 1st March

08.30	Opening of the secretary and registration of participants	ECM Secretariat
09.00	Greetings and introduction to the Course	S. Ulivi
1 Session		
09.15	Neuroscience and Digital Humanities: the state of the art	E. Dyson
10.15	Neuroinformatics and Neuroscience	M. Martone
11.15	Coffee break	
11.30	Computational Psychiatry Digital Mental Health and the future	A. Peled
12.30	The NeuroMyth of Addiction: Addiction as Lived Human Experience	S. Peele
13.30	Lunch time	
2 Session		
14.30	Neurobiology of emotions	R. Gradini
15.30	Neuroimmunomodulation and Psychotherapy	S. Ulivi
16.30	Epigenetics and Neuroimmunomodulation	G. Cozzolino
17.30	Discussion on topics covered	

Program

Saturday 2nd March

09.30	Opening of the secretary and registration of participants	ECM Secretariat
-------	---	-----------------

3 Session

10.00	Philosophy, Neuroscience and Digital Humanities	A. Pagnini
10.45	Communication through Digital Humanities	M. Mazzolai
11.30	Coffee break	
11.45	When we decide. Are we conscious actors or biological machines?	N. M. Maldonato
12.30	Informational Medicine. Diagnosis and Therapy	E. Sermoneta
13.15	Lunch time	

4 Session

14.15	Neuroinformatics and Modulation of the Autonomous Nervous System: use in Therapy	C. Fè d'Ostiani
15.00	Use of combined therapeutic possibilities for personal and relational well-being	C. Cappellini
15.45	Take home messages	
16.00	ECM learning questionnaire and approval	
16.30	Presentation of abstracts	
17.00	Award ceremony	
17.15	Conclusions	

Faculty

Carlo Cappellini

Adviser and Press Officer of SNAMID Board, Milan. National Provider AGENAS. Component Unconventional Medicine OMCeO, Milan

Giovanni Cozzolino

Sociologist, Epigenetic Expert, Pistoia

Esther Dyson

New York Times journalist–Philosopher, Emerging Digital Technologies and Neurosciences' Expert – Philanthropist

Cristiana Fe d'Ostani

Medical Psychotherapist, Florence

Roberto Gradini

Medical Pathology Associate Professor, Director of the Master in Psychoneurobiology at Sapienza University (Rome, Italy)

Nelson Mauro Maldonado

Professor of Neurosciences' Department, Federico II University of Naples

Maryann E. Martone

Emeritus Professor, Neuroscience Dep., UC San Diego School of Medicine – Neuroanatomist and Neuroinformatics' expert – Hypothesis.is Director of Biosciences (California)

Mauro Mazzolai

Doctor in General Medicine, Pulmonologist, Homeopath, Biological Aesthetic Medicine, Communication Sciences, Grosseto

Alessandro Pagnini

Associate Professor of History of Contemporary Philosophy, Firenze University

Stanton Peele

Psychologist, Psychotherapist - New York, USA

Abraham Avi Peled

Professor of Psychiatry, Mental Health Center Shaar-Menashe, Israel - Senior Lecturer, Bruce and Ruth Rapaport, Faculty of Medicine - Israel Institute of Technology, Haifa, Israel - Cofounder of Neuroanalysis.org

Elio Sermoneta

Kinesiology Homeopathy Surgeon specialized in Natural Medicines, Milan

Sabrina Ulivi

ANSES President– Integrative Psychotherapy and Neuroimmunomodulation– University of Siena

General information

Registration is done by completing the online registration form on the page “Prossimi Eventi” at [www.av-eventieformazione .it](http://www.av-eventieformazione.it)

Participation in the conference involves the payment of euro 320,00, for University students euro 180,00. The registration fee includes participation in the works, congress material, participation certificate, coffee breaks and business lunches.

La quota di iscrizione comprende la partecipazione ai lavori, il materiale congressuale, l'attestato di partecipazione, i coffee break e le colazioni di lavoro.

Date and location 1st-2nd March 2019, Convitto Ecclesiastico della Calza, Firenze - Piazza della Calza, 6

Member 100

Addressee

Physicians Surgeons specialists in: General Medicine (family doctors), Cardiology, Pharmacology, Geriatrics, Hygiene Epidemiology and Public Health, Medicine and Surgery Acceptance and Emergency, Physical Medicine and Rehabilitation, Internal Medicine, Neurosurgery, Neurophysiopathology, Neurology, Neuropsychiatry Infantile, Neuroradiology, Psychiatry, Psychotherapy, Radiodiagnostics; Nurses; Physiotherapists; Speech Therapists; Psychologists; Neurophysiopathology technicians; Psychiatric rehabilitation technicians; Occupational therapists.
